

## FLEXIBLE SHAFT PROXXON 110/P

The highly flexible professional flexi shaft: Triple ball bearing with maximum speed of 25000 rpm.

Two ball bearings in the light aluminium hand piece and one in the drive end prevent tool bit chatter. The highly flexible shroud and core effortlessly transmit power without heating up when bent tightly. Anti-kink springs at the grip and drive end prevent kinks.

Drive end 3mm dia.

Spindle threaded for collets (1,0 - 1,5 - 2,0 - 2,4 - 3,0 and 3,2 mm. supplied).

Total length 100 cm. and max. speed 25 000 rpm.
