

PROXXON HKP 220 - GLUE GUN

Quick and reliable gluing of metal, wood, plastic (including Plexiglass), glass, ceramics, stoneware, cardboard, leather, polystyrene foams and textiles. The adhesive sets in about 2 minutes, allowing positional corrections (which is impossible with instant glues). The 7mm glue sticks are perfect for delicate work such as model build-ing, toy and jewellery making, dried flower arrangements, etc. Sensitive mechanical feed ensures correct glue quantity delivery. Integral stand positions gun on worktop when not in use. Short heating time.

Technical data: 220 - 240V.

PTC controlled element for exact temperature of 200 C. Four glue sticks 7 x 100mm and 3 interchangeable metal nozzles are included in the set.
