

## SPLASH GUARD TRAY FOR PROXXON MILLING MACHINES

Made of 1.5mm thick sheet steel, powder-coated. Secure stand due to drill holes for fastening to a work surface (the use of steel sleeves keeps the tray tightly sealed). L 700mm, W 420mm, H 40mm.

Suitable for FF 230, FF 400, FF 500, FF 500/CNC, FF 500 - ready for CNC and the set-up BFB 2000 with KT 150.

The illustrated MICRO Miller is not included in the specification.
