

## MICROMOT ADAPTER FOR FF 500/BL

To be used for high-speed MICROMOT appliances in combination with the MICRO Miller FF 500. And especially for use with the MICRO Miller FF 500/CNC.

The standard milling head is exchanged for the adapter in just a few steps. Our 20mm collar enables to fasten all appliances of the MICROMOT 50 series, the MICROMOT precision drill/grinder FBS 240/E and the MICROMOT professional drill/grinder IB/E. Especially for applications that require high speeds for small milling cutters (example: milling electric printed boards). Also for micro drilling. Complete with fastening screws.
