

TORMEK RB-180 - ROTATING BASE

The RB-180 enables you to easily rotate the machine 180° and lock it with complete stability. You can alternate between sharpening and honing, or sharpening towards or away from the edge in seconds. **Key features**

- easily rotate the machine 180° to select the ideal sharpening direction.
- rubber feet absorb the normal vibrations and make sure that it rests firmly on the table
- compatible with Tormek T-8, Tormek T-7, Tormek T-4, T-3, the 2000 and 1200 Series, plus the SA-250 and N-1500.
