

TORMEK LA-145 - LEATHER HONING WHEEL

Gently removes the burr which develops during grinding and polishes the bevel. Fits Tormek T-4, Tormek T-3 and 1200 models. It is used together with Tormek Honing Compound PA-70. To get the highest possible sharpness on your edge tool, you finish the sharpening process by honing your tool on the Leather Honing Wheel.

Swedish quality leather

The leather on the Leather Honing Wheel is provided by the tannery Tärnsjö Garveri in Sweden. Tärnsjö Garveri has tanned and processed leather for over 140 years and is today one of the few tanneries that completely tans their leather with natural products. The leather on the LA-145 Leather Honing Wheel is both eco-friendly and of the highest quality.
