

FUSING MOLD - SPHERICAL BOWL 40,5 X 8,2 CM

Create an ideal focal piece for a conference table or reception desk. The neutral quality of this mould is an perfect template for any artistic object, a lamp, round, square, triangular or other shapes. Whereas some like the swaying movement of the finished glass piece, some glue rubber pads to the base to make it more stable.

Tip: No matter how you place the glass on the mould, you will always end up with a perfectly spherical glass shape.
