

ART CLAY PAPER PLUS 35 GR

This new Art Clay Paper Plus version is *2.5 times thicker* than the standard Paper version.

This thickness allows you to create 3D structures with clean edges and no cracks. Because of the higher strength, Art Clay Paper Plus can be folded, cutted with a knife or scissors. Perfect for the creation of **Origami jewelry!**

Art Clay Paper Plus is ready to use: the surface must not be wet as it may fall apart. Possible repairs with Art Clay Paste or Overlay should be done after firing.

This product must be fired in a kiln.

Recommended firing curve:

- from room temperature to 850 ° C at maximum speed then maintenance for 20 minutes.
- As an alternative to 800 ° C with 30 minutes maintenance.

Art Clay Paper Plus has a reduction of 8 - 9% after cooking.

Dimensions: 85 x 85 x 0.6 mm. br> Weight: 35 grams
