

PROMETHEUS KILN PRO-1-PRG

Prometheus PRO1-PRG: Programmable and versatile kilnThe Prometheus PRO1-PRG is a small programmable electric kiln, perfect for complex firings such as **Bronze Clay, Copper Clay, Art Clay Silver**, Metal Clay, enamels on copper and silver, small ceramic or glass objects. It features a digital programmer capable of storing up to 15 programs with 5 segments each, offering maximum flexibility for any firing needs.

- Programmable controller: 15 storable programs with 5 segments each.
- Suitable for complex firings like Bronze and Copper Clay.
- Uniform temperature distribution thanks to internal heating elements.
- Low energy consumption (700W): suitable for domestic use.
- Compact and lightweight, easy to fit in small spaces.
- Maximum temperature: 1000°C.
- Requires a refractory shelf sold separately (code #44034).
