

H PLUS 10 KILN

H PLUS Kiln - Semi-Professional Tabletop Kiln The H PLUS Kiln is a semi-professional tabletop kiln, perfect for workshops, schools, and hobbyists. This highly versatile kiln can fire a wide range of materials, including ceramics (stoneware included), porcelain, metals, and glass. The firing chamber is entirely made of refractory bricks, ensuring perfect and consistent temperature uniformity and long-lasting durability. Equipped with a digital automatic cycle controller and indicator lights showing the operational functions, the kiln features a hinged door with quick lock for practical and safe use.

Main Features:

- Electrowelded steel structure with anti-corrosion treatment.
- Multi-layer insulated firing chamber to absorb moisture and prevent condensation.
- Heating elements made of Kantal A1 for uniform and long-lasting firings.
- Type S temperature probe for temperatures up to 1300°C.
- UC51 controller with 9 programmable cycles and the possibility to set 12 different temperatures for each cycle.
- Automatic restart in case of power failure.
