

## SIGMA 90/E KILN - 1050°C

**Sigma 90/E** is a 90-liter kiln made with *eco-friendly fiber*, suitable for laboratories, schools, and hobbyists who want to independently fire ceramics, glazes, or third-fire decorations.

### Main Features:

- Firing chamber made entirely of eco-friendly fiber, no risk category (Regulation EC 1272/2008 CLP).
- Robust ventilated steel structure.
- Perfect and consistent temperature uniformity.
- High-quality heating elements, embedded in grooves in the walls.
- Firing cycle regulation with a digital computer with a microprocessor (9 programs / 12 steps).
- Solid State Relays (SSR) for silent and precise resistance control.
- Flag door with quick closure system.
- Accepts refractory shelves with dimensions of 400 x 500 mm.
- Made in Italy.
