

PROFESSIONAL ETCHING PRESS WITH RACK SYSTEM 3653 - 52 CM

Professional etching press cm 53 designed for artistic printmaking in professional studios, educational workshops and fine art academies. The rack-driven metal plate allows precise control for woodcut, linocut and manual engraving techniques. Its compact yet sturdy construction and 3:1 lower roller ratio make it suitable for continuous academic use and professional graphic production. **Key features**

- Professional press for artistic printmaking
- Suitable for woodcut and linocut printing
- Ideal for manual engraving and light intaglio
- Rack-driven moving metal plate
- Steel rollers for controlled pressure
- Designed for academies and print studios
