

UNIVERSAL MILLING SYSTEM UF/E

High torque even at lower speeds. 230V-operation (no additional controller needed).

Variable speed pre-selection from 10,000 to 30,000 rpm and digital speed indication. The sophisticated control via rotor position and speed sensors guarantees high torque also in the lower speed range. Machine base made of die-cast aluminium with 20mm MICROMOT standard collar and 43mm European standard spindle collar. Triple ball bearing spindle for high concentric accuracy and smooth running. The collets depicted are included, the milling bit is not included.

Technical data:

- Tension: 230 V - 50/60 Hz
- Power: 250 W
- Rpm: variable 10.000 - 30.000 rpm
- Weight 1200g.

Includes three ER11 collets according to DIN/ISO in sizes 2.5 - 3.2 (1/8") - 6mm.
