

CRICUT EASYPRESS MAT 30X30CM

Protect your surface area while you achieve flawless iron-on applications every time with this essential Cricut EasyPress accessory. The durable cover provides thermal conductivity and a great heat distribution. A special inner liner wicks moisture will deliver clean, dry heat. The foil membrane reflects heat to your project and prevents moisture vapor transfer, while the silicone foam provides insulation and shields the surface from damaging heat. Finally, a soft, protective bottom barrier seals layers together for flawless results. Mat is also perfect for pressing sewing projects. **Key**

Features
