

COTTON GAUZE 120 GR/M2 - 210 CM X 10 MT

Tarlatan is a wide-weave cotton gauze that is starched and used in the inking stage of etching process. Its wide weave allows for cleaning the plate from excess ink without removing what has penetrated into the incised marks. **Key Features:**

- Material: polyester/cotton
- Medium grain
- Weight: 120g/sqm
- Dimensions: 210 cm x 10 meters (21 square meters)
