

## FLEX-I-FILE COMBO SET

Flex-I-File gets into spaces that other tools cannot! Holding the frame and varying grip pressure ensures no flatspot occurs during sanding. Particularly good for scale aviation models that have multiple compound curves. Fitting perfectly into tight corners and interior angles even the tightest spot isn't out of reach. Eliminate imperfections on your project by gradually progressing through the grits from coarse to fine. **This set includes**

- 1 Anodized Aluminum Frame
- 2 Red 600 Grit Tapes
- 3 Grey 320 Grit Tapes
- 6 Garnet 280 Grit Tapes
- 6 Black 150 Grit Tapes
