

## MODENA SOFT COLD PORCELAIN 150 GR

Modena Soft is a soft and flexible modeling clay that air-dries.

- Soft and flexible clay, after drying it is waterproof and virtually indestructible, the color of the clay is white like ceramic and even looks like porcelain when finished with the appropriate sealer or super gloss paint, the color never fades.
- Air-dry, this clay is 50% lighter than traditional Modena clay, it can be mixed with other colors like hearty color or even acrylic or oil paints to create an infinite variety of colors.
- After drying, the clay can be painted with any type of paint.
- Ideal for creating flowers, imitation sweets, and beautiful decorations.
- Non-toxic.

**Please note:** The clay in the Modena series contains a high percentage of resin, making it more sensitive to temperature. Therefore, the Modena series cannot be stored at temperatures below 0°C. Correct storage temperature: 5°C-25°C.
