

## SAGUARO SIGNATURE PLUS UPPER CASE LETTER SET 4 MM

Welcome to this cactus-inspired letter set that will ensure your Metal Stamping creations are perfect! The 4mm Signature Saguaro alphabet from ImpressArt is named after the famous Saguaro cactus found in the American Southwest desert. Its narrow sans-serif letter impressions, reminiscent of the tall and slender structure and thin arm-like branches of the iconic species, pay tribute to its unique characteristics. Enhance your designs with additional desert-inspired design stamps included in the letter set. **Key Features**

- ImpressArt's Signature metal stamps are professional quality stamps, made to the highest standards for durability and alignment.
- The stamps are made of hardened steel and are suitable for stamping on both soft and hard metals, including stainless steel\*.
- Sharp character edges ensure crisp and deep impressions project after project.
- The characters are marked on the side of the stamp for easy identification and orientation.
- Each letter and number set comes in a patented ImpressArt storage case.
- The case features labeled slots for each stamp to keep them organized and easily accessible.
