

SAGUARO SIGNATURE PLUS NUMBER SET 4 MM

Welcome to this cactus-inspired letter set that will ensure your Metal Stamping creations are perfect! The 4mm Signature Saguaro alphabet from ImpressArt takes its name from the famous Saguaro cactus found in the southwestern desert of America. Its narrow sans-serif letter impressions are a tribute to the tall and slender structure and thin arm-like branches of this iconic species. Enhance your designs with additional desert-inspired design stamps included in this letter set. **Key Features:**

- ImpressArt's Signature metal stamps are professional-grade stamps, made to the highest standards for durability and alignment.
- The stamps are made from hardened steel and are suitable for stamping on both soft and hard metals up to stainless steel*.
- The sharp character edges ensure crisp and deep impressions project after project.
- The characters are marked on the side of the stamp for easy identification and orientation.
- Each letter and number set comes in a patented ImpressArt storage case.
- The case features labeled slots for each stamp to keep them organized and easily accessible.
