

## CRICUT 3 IRON-ON PRINTABLE SHEETS FOR DARK FABRICS A4

Creating full-color heat transfer projects is easier than ever with this amazing printable heat transfer material. Designed with a backing instead of a carrier sheet, Printable Iron-On allows you to print your favorite design on it, just like with adhesive paper! No more complex layering or multiple sheets of heat transfer vinyl. Simply design your idea, print it in full color with your home inkjet printer, then let your Cricut cutting machine precisely cut your design. Finally, transfer it onto a t-shirt, bag, decorations, and more with a Cricut heat press or a household iron. **Instructions**

- Apply only to pre-washed and completely dry materials
- Wait 48 hours after application before washing
- Wash inside out in cold water, hang to dry
- Do not bleach
- If ironing is necessary, iron only on the back of the garment
- Do not iron the decoration

### Features

- 3 A4 sheets - 210 x 297 mm
- Create bright and colorful designs without layering
- Designed for transfers on dark fabrics
- Requires an inkjet printer
- Compatible with Cricut Maker® and Cricut Explore® machines, and Cricut Joy Xtra™
- For best results, transfer using the Cricut heat press
