

NABERTHERM GF 240 KILN

The Nabertherm GF 75-1425 glass-fusing kilns are engineered for professional standards: quartz-tube elements ensure even temperature, while optimised insulation with Solar Mode and a double-wall stainless body cut energy use. The AC590 6.8-inch touchscreen controller with Wi-Fi and USB provides 50 editable programs for fast, traceable cycles in glass fusing or bending.

Key features

- Quartz-tube heating elements for even heat
- Gas-spring-assisted lid opening
- Flat, robust refractory brick table
- CLP-safe insulation materials
- NTLog Basic & MyNabertherm app

Technical specifications

- AC590 controller: 6.8" touchscreen, 50 programs, 40 ramps, Wi-Fi/USB
- Double-wall stainless body; optimised insulation, Solar Mode
- Robust refractory hearth, rapid heat-up
- Data logging via NTLog Basic; hour & kWh counter, error archive
- Kiln furniture set sold separately

SPECIFICHE

| SKU | Computer type | Max. Temp | Power | Voltage |
|-------|---------------|-----------|---------|---------------------|
| 58261 | AC590 | 950°C | 11,0 Kw | 380 ~ 400 V - 50 HZ |

DIMENSIONS

| SKU | Internal Width | Internal Depth | Internal Height | Length | Height | Depth | Weight in kg |
|-------|----------------|----------------|-----------------|--------|--------|-------|--------------|
| 58261 | 1010 | 620 | 400 | 1460 | 1460 | 1140 | 275 |
