

PROXXON THERMOCUT TKS 360 CIRCLE CUTTER

Proxxon THERMOCUT Circle Cutter TKS 360

For super-precise circular cuts! Enables the precise production of cylinders and cut-off cones with high repeat accuracy. Solid construction made of aluminium (anodised). Stepless, tool-free height adjustment. Generous feed gear ratio (1:3) for comfortable cutting without having to reach round the rotary knob. Simple preselection of the desired workpiece diameter by moving the device in the table groove. Ergonomic handle for a secure grip during operation.
