

TABLE CIRCLE GLASS CUTTER 250 MM

Precision Circle Glass Cutter - Ideal for making multiple precise circles. Non-slip rubber base and positioning guides ensure repeatable, accurate cuts. Ball-bearing cutting system for smooth operation and flawless results.

- Portable and lightweight
- Thick rubber-covered base (19 mm) for stability
- Guiding square and side ruler for precise positioning
- Calibrated ruler (mm/inches)
- Ball bearings for smooth rotation
- Rotating head with oil reservoir
- Cutting diameter: 10-250 mm (10")
- HM VISCOR Tungsten Carbide cutting wheel
Ø4.0x1.0xØ1,30-135°

Cutting Process: Adjust diameter, fill oil reservoir, lubricate, score with steady pressure, open the score line, and refine edges.
