

## CERNIT TEXTURE MAT - FREESTYLE

Cernit rubber texture plates allow you to quickly imprint attractive raised patterns onto clay, creating richly textured surfaces with ease. Simply press the plate firmly onto the clay by hand; do not use a rolling pin to avoid distorting the design. Highly flexible and durable, they are suitable for polymer clay, air-drying clay and plastiline. **Key features**

- Quick embossing of raised patterns
- Easy hand-press application
- Premium results when combined with the Cernit Sparkling range
- Highly flexible and reusable
- Washable and long-lasting

### Technical specifications

- Material: vulcanized natural rubber (latex)
- Compatibility: polymer clay, air-drying clay, plastiline
- Dimensions: 9 × 9 cm
- Safety: not suitable for people allergic to latex

### Instructions of usage

- Press the plate directly onto the clay by hand
- Do not roll over with a rolling pin to prevent pattern distortion
