

## CREATORS MAGNE-FOILER

The Creator's Magne-Foiler is a foiling tool designed to make copper foil application faster, more precise, and consistent in stained glass work. Featuring a precision-machined aluminum roller and a compact design, it delivers uniform results across multiple foil widths. The updated MGF-G2 version includes injection-molded components and a new Crimp-Stand for improved finishing efficiency.

### Key features

- Extreme precision and consistent foiling results
- Compatible with 3/16" (4.8 mm), 7/32" (5.7 mm), and 1/4" (6.4 mm) foil
- Precision-machined aluminum roller
- Compact footprint suitable for any workspace
- Easy to learn, load, and operate
- Includes FREE Fid'I Stik for finishing
- Latest MGF-G2 version with integrated Crimp-Stand
