

## 2 SURFACES CUTTING MAT

Cutting Mat with 5 Layers of Plastic - Durability and Versatility for Cutting Various Materials

The **Cutting Mat** is designed for exceptional durability, thanks to its 5 layers of plastic that provide long-lasting resistance and strength. Perfect for precise cutting of paper, cardstock, leather, cork, balsa wood, and other materials using a cutter. The surface is pre-engraved with a grid pattern to facilitate accurate cuts. Usable on both sides, it features two different colors, black and blue, for greater versatility. Available in various sizes to meet all creative needs.

Main Features:

- **5 layers of plastic:** Provide incredible durability and resistance during use.
- **Versatile cutting surface:** Ideal for materials like paper, cardstock, leather, cork, balsa wood, and more.
- **Pre-engraved surface:** The pre-engraved grids make cuts easier and more precise.
- **Double-sided use:** Features two colors, black and blue, for versatile usage.
- **Available in various sizes:** Offers a range of options to suit any cutting needs.
