

FAN BRUSH SYNTETHIC GOLD

Brush with oblique cut tip in Gold synthetic yarn, with short handle in silver-colored lacquered shaped wood, with black-stained anodized aluminum ferrule.

- The gold fiber, soft and elastic, is ideal for base watercolour, gouache and other pictorial techniques without thickness.
- The short, contoured, ergonomic handle is comfortable to handle for small, long-lasting precision jobs.
- The oblique fiber has the performance of a flat brush with excellent precision in the lines when used in an edge.
- When pressed, it creates a trace defined as a right angle triangle.
- The synthetic gold hair is used to replace the natural Ox hair, with the same characteristics of lightness and elasticity, with an excellent maintenance of the shape of the tip, and a medium water absorption with natural release.
- The brushstroke is precise and the line manageable even by beginners. Excellent use for basic watercolor, decorations and hobby techniques.
- The handle is designed to be used on the handle. comfortable and light.
- The shaped handle is lacquered to protect the wood from deformation due to prolonged immersion in water or solvents.
- It was born as a studio series, also appreciated by illustrators and professionals.
- Packaged with the appropriate tip protection tube.
