

MK-303 - LAPIDARY DIAMOND SAW BLADE

MK-303 Professional grade diamond blade has been designed for cutting rare and valuable materials (like agate, quartz, petrified wood, jasper, jade, etc) when waste needs to be held to a minimum and speed of cut is essential. The MK-303 produces smoother cuts, lasts longer and cuts faster than notched rim or plated diamond blades. Designed for use with a water soluble coolant. Blades diameter 400 mm and larger have segmented rims. Special arbors available upon request. Stock arbors can be bushed to smaller sizes.

Key features

- Professional grade sintered diamond
- Fast and smooth cuts
- Small thickness will reduce at minimum waste of precious materials
- Use only with diamond coolant
