

BOOSTER WOODEN WICK W. BASE

These wooden wicks, made of redwood, are ideal for making candles in a container with soy wax or paraffin wax. **Key features**

- Excellent combustion and diffusion of fragrance
- Made in double glued layer
- Supplied with metal base for fixing to the bottom of the container

Available formats

- S - dimensions 13 x 150 mm, ideal for candles in containers diameter 70 - 80 mm
- M - dimensions 16 x 150 mm, ideal for candles in containers diameter 80 - 90 mm
- L - dimensions 16 x 150 mm, ideal for candles in containers diameter 90 - 100 mm

This information is indicative: we recommend testing the wicks with wax, fragrances and colors in use before purchasing large batches
