

## UNICO INFINITO QUILL SYNTHETIC BRUSH 850 SERIES

UNICO Infito is an innovative watercolour brush Made in Italy.

- Round-tipped quill brush in HIDRO synthetic fibre with high absorbency and balanced ergonomic handle for painting in total comfort, with a heath-shaped binding collar for maximum stability, along with double brass-wire binding.
- The HIDRO® synthetic fibre is extremely soft to the touch and offers a slow, gradual and homogeneous release of water.
- The flamed tip is characterised by a thin and precise end, with a body that widens into a generous diameter.
- The brushstroke is supported by the pressure of the hand, guaranteeing ample autonomy of the water and colour with a change in the line.
- The handle of the UNICO Infito is embellished by a hi-tech texture, a black resin handle and a non-slip finish, with the exclusive anti-rolling system that reduces tension in the joints of the hand thanks to the larger diameter.
- The tip complies with the pressure of the brush stroke as it varies, maintaining a wide autonomy of colour.
- Ideal for diluted painting techniques.
