

ROUND RIGGER SYNTHETIC BRUSH 750 SERIES

The **RIGGER**, also called "writing brush" or liner, is made of a new Japanese synthetic fibre similar to natural sable hair. The Borciani e Bonazzi rigger brush developed with the artist Geremia Cerri has the main feature of having a very elastic fiber with a very fast return effect and at the same time an excellent reservoir with good water retention. The Rigger series 750 Borciani e Bonazzi developed with Geremia Cerri is perfect for making quick and precise strokes, typical of Impressionist watercolor and Urban Sketching.

- Round tip rigger extra long brush in sable imitation synthetic fibre
- Short light birch wood handle
- Light gray water-based paint with grip effect
- Orange no ink decoration print with a distinctive design
- Calibrated nickel-plated brass ring.
