

DECOUPAGE GLUE

Decoupage glue, ideal for paper napkin technique, water-based, can be used on paper, wood, plastic, ceramic, metal, etc.

- Instructions for use:
- Cut desired patterns from the napkin or fabric.
- Partially prepare the surface with a thin layer of decoupage glue
- Apply the chosen pattern and smooth with your finger or a soft brush
- Be careful to eliminate any bubbles
- Repeat until the object is completely decorated
- Now paint everything with the glue and let it dry.
- Cardboard requires more layers of glue
- Drying time between 20 and 60 minutes
- We recommend for an optimal result to finish with decoupage varnish
- Then the object can be cleaned with a damp cloth
