

## PIGMENTS FOR JESMONITE

**Jesmonite Pigments – Intense, versatile colours for your creative work**

**Jesmonite Pigments** are water-based colourants formulated specifically for Jesmonite materials, including AC100, AC300, AC630, AC730, AC830, AC930, and AC84. They offer **vibrant or soft tones**, perfect for both interior and exterior applications across artistic, architectural, and decorative fields.

### Main Features

- Compatible with all Jesmonite composites (AC100–AC930, including AC84)
- **Intermixable:** blend colours to create custom shades
- Available in **3 sizes:** 10g, 50g, 200g
- Even colour distribution without clumping or streaking
- Water-based and **solvent-free**

### How to Use

- Mix directly into Jesmonite liquid or into the full mix
- **Maximum addition: 2%** of total weight (e.g., 20g per 1kg)
- Use a few drops for soft shades, add more for rich colour

### Why Choose Jesmonite Pigments?

- Strong pigmentation and colour control
- Ideal for **decorative, architectural, and functional applications**
- Easy to use, endless possibilities

**Add vibrant expression to your creations – Choose your pigment size and start mixing!**

| Color / Size | 10 GR | 50 GR | 200 GR |
|--------------|-------|-------|--------|
| White        | 55157 | 55175 | 55166  |
| Yellow       | 55154 | 55172 | 55163  |
| Yellow Oxide | 55158 | 55176 | 55167  |
| Orange       | 60179 | 60180 | 60181  |
| Pink         | 60182 | 60183 | 60184  |
| Red          | 55153 | 55171 | 55162  |
| Red Oxide    | 55156 | 55174 | 55165  |
| Terracotta   | 55159 | 55177 | 55168  |
| Coade        | 57501 | 57502 | 57503  |
| Green        | 55155 | 55173 | 55164  |
| Blue         | 55152 | 55170 | 55161  |
| Violet       | 60185 | 60186 | 60187  |
| Black        | 55151 | 55169 | 55160  |
