

CANDLEPAINT - LIQUID WAX FOR DECORATING CANDLES AND RELIEF OBJECTS

Create unique and personalized candles and raised objects with Candlepaint, our liquid wax! Candlepaint is ideal for decorating candles and objects; it is a versatile and easy-to-use product that allows you to unleash your creativity. **Key features:**

- **Opaque and mixable:** create multicolored veins and special effects.
- **Overpaintable and overlapable:** create layers of color to achieve a three-dimensional effect.
- **Removable by abrasion:** you can remove the wax to change your mind or renew your creation.
- **Vibrant and bright colors:** the correct shade of color is achieved after complete drying (24 hours).
- **Convenient 28 ml packaging:** perfect for creating small creations.

Ideal for:

- **Wax candles:** decorate your candles with floral, geometric patterns or simply with a touch of color.
- **Wood, paper, cardboard, plastic, plaster objects:** create unique and personalized objects for your home or as a gift.

How to use:

1. Apply the wax directly from the tube onto the object.
2. The color at application will have a milky appearance that will change once dry (approximately 24 hours).
3. To remove the wax, gently scrape it off with a knife or brush.

Order your liquid wax for decorating candles and objects now and start creating your unique creations!
