

VAN GOGH SOFT PASTEL SETS

Van Gogh Soft Pastel Set

Pure and brilliant colours in soft pastel sticks for those seeking student-artist quality. Van Gogh slim, round sticks are ideal for using the edges for detail or on its side for broad area coverage. Composed of high-quality pigments and kaolin clay for a formulation with easy colour transfer, a velvety appearance, and made to be less likely to crumble. Pigments are free of heavy metals: lead, cadmium, and cobalt. Pastels work fantastic on surfaces with tooth that can hold the pastels, such as paper, cardboard, stone, asphalt, or wood. Pastel drawings and paintings are not smudge-proof, and it is recommended to use a fixative on top of finished artwork.

- Pure and brilliant colours
- Slim, round sticks for details and broad areas
- High-quality pigments and kaolin clay
- Pigments free of heavy metals
- Suitable for surfaces with tooth
- Not smudge-proof, requires fixative
