

RED INDUSTRIAL BISCUIT TILE

The **industrial red biscuit tile** is the ideal choice for decorative and personalized projects. Made from ceramic fired once at 1000°C, it is ready to be decorated with glazes or crystalline finishes and then fired again for the second baking. Industrially manufactured, it features a smooth surface on one side and protrusions on the other for excellent adhesion. Available in a 200 x 200 mm format with a thickness of approximately 8 mm, this tile is perfect for decoration and crafting purposes.
