

SILICONE BRUSH - ANGLED TIP

Angled brush, series 610, rubber, with nickel-plated brass ferrule and short black lacquered wooden handle.

- Ideal for blending pastels and charcoal, creating smooth and effective color transitions.
- Effective for sculpting and modeling soft materials like clay.
- Perfect for shaping and carving thick, dense paints to create striking effects.
- Leaves no brush strokes when decorating glass.
- Softness and elasticity make it suitable for applying mud and creams in the cosmetic and massage sectors.
- Versatile and suitable for various fields in fine arts, cosmetics, and cake design. Made in Italy.
