

ROUND WAX TUBE WITH ECCENTRIC HOLE

Discover the Matt™ wax ring tube with a round profile and off-centered hole, designed to jumpstart carving and provide a bezel-ready band with minimal material removal. **Main**

Features:

- Round profile with off-centered hole for quick mounting and easier carving
- Basic band shape with room for bezel carving
- Available in Blue (bendable up to 90°) and Green (rigid for precise detailing)
- Dimensions: 27 mm outer Ø, 16 mm inner Ø, 150 mm length
- Pre-milled and calibrated tube, free of pits and air bubbles

Benefits for You:

- Speeds up prep work and streamlines your workflow
- Reduces wax removal for faster bezel creation
- Blue wax perfect for flexible, curved designs; Green wax for intricate carving and milling
- Professional-grade quality for flawless results
