

VINAVIL SPECIAL GLUE

Vinavil Special is a medium-solids, solvent-free polyvinyl acetate adhesive engineered for fast, reliable bonding of porous materials. It dries crystal-clear for clean finishes and forms a flexible, stress-resistant film. Ideal for gluing wood and plastic laminates to wood, paper, cork, canvas and other substrates in bookbinding, crafts and light assembly. **Key features**

features

- Balanced medium-solids formulation
- Crystal-clear and odourless when dry
- Flexible, non-brittle bond
- High affinity for porous surfaces & plastic laminates
- Convenient 1 kg and 5 kg packs

Technical specifications

- Type: medium-solids PVAc adhesive
- Viscosity: medium (~5000-7000 mPa-s)
- Solid content: ≈45 %
- Colour: milky white wet, clear dry
- Solvents: none (water-based)
- Packaging: 1 kg, 5 kg
