

SINTOLIT MARBLE PUTTY

Sintolit is a two-component polyester filler that bonds, fills and rebuilds missing marble, stone and ceramic parts in minutes—ideal for floors, thresholds, statues and hard objects; tintable with iron oxides or color pastes and polishable for invisible repairs. **Key features**

- Two-part system (resin + hardener)
- Bonds and fills stone cracks
- Working time 3-5 min, cure 30-60 min
- Polishable and custom-tintable
- Solvent-free, vacuum-processed

Technical specifications

- Contents: filler + hardener (2-3 % ratio)
- Standard colours: white, straw
- Application temp: +5 °C to +50 °C
- Service temp: -5 °C to +100 °C
- Warranty: 12 months; store cool

1. Clean and dry surfaces
2. Mix in 2-3 % hardener, apply within 5 min
3. Allow to cure, then sand or polish
