

QUADRA KILN EXTENSION RING

Extension ring for Quadra electric kilns, designed to increase the usable chamber volume. Made of refractory bricks with a metal coating, it ensures strength and durability. Up to 2 extension rings of 12 cm can be installed in addition to the ring with heating elements; using more would prevent the kiln from reaching maximum temperature. *By adding extension rings, the maximum achievable temperature and heating times may vary.*

Key features

- Expands the kiln's firing chamber
- Made of refractory bricks
- Durable metal cladding
- Compatible with Quadra series kilns

Technical specifications

- Ring height: 12 cm
- Maximum installation: 2 rings plus heating element ring
- Materials: refractory + metal casing
