

CERNIT ALCOHOL INK

Cernit Alcohol Inks are designed to colour raw polymer clay and a wide range of materials including paper, cardboard, wood, glass, leather, metal, plastic, ceramic and resin. The inks can be mixed together to achieve custom shades. Acid-free and quick air-drying, they remain vibrant and glossy with a mainly translucent finish. **Key features**

- Suitable for many different surfaces
- Mixable colours for custom shades
- Fast air-drying
- Glossy translucent finish (except 5 colours)
- Fine tip for precise application

Technical specifications

- Type: alcohol-based inks
- Composition: acid-free
- Finish: translucent after drying
- Compatibility: ideal for epoxy resin colouring
- Bottle: fine precision tip
