

FINE SILVER SETTING - HEART

Fine silver 999 setting designed to securely hold heart-shaped stones with precision. Fully compatible with metal clay techniques, it can be fired directly with Art Clay Silver, allowing seamless integration into the piece during sintering. Ideal for custom jewellery making, it combines ease of use with a professional finish. **Key features**

- High-quality 999 fine silver
- Designed for heart-shaped stones
- Can be fired with Art Clay Silver
- Stable integration during sintering
- Suitable for jewellery and creative design

Technical specifications
