

COLOROBIA LIQUID ENGOBES

Engobes are clay based ceramic colours which give solid coverage on large surfaces and are easy to use.

All engobes can be used both on *greenware* and bisque. Use Filigrana for a fun raised effect on your pottery. Shake jar well and refill in detail bottle. Gently squeeze bottle to create design on your piece. Filigrana (HC0610) comes in white only, but a little bit of Bellissimo Glaze can be added to change colour for fun effects.

PREPARATION-APPLICATION-FIRING

Shake well before use. If necessary dilute with water. Apply 1-3 even coats to mature 04 bisque. Application by brush, sticks or sponge; suitable for sgraffito tooling.

Can be left unglazed to achieve their matte finish.

Apply transparent superclear lead free (HC-0001-B) by brush or HC-0004-D dipping to achieve super brilliant finish.

Airbrush application for professional use only.

Firing temperature 950°-1000°C (Orton cone SSB 08-06).
