

LEAD-FREE OVERGLAZE CAV SERIES

These Overglaze Colours (**Majolica**) are totally lead-free and have undergone such an ultra refined special process to be perfectly brushable.

They can be dry-mixed with each other and they also are particularly suitable for colouring white and *transparent glazes*.

PREPARATION - APPLICATION - FIRING

Mix with water and apply by brush, sponge, or stamping. Sifting always recommended.

Airbrush application for professional use only.

Firing temperature: 950°-980°C (Orton cone 08-07).
