

## LIQUID TRANSPARENT GLAZES HST SERIES

The HST and HSC series includes different types of transparent liquid glazes. They are completely lead-free and suitable for white bisque. These glazes are perfect to intensify "bas-reliefs" or engraved items.

### Preparation - Application - Firing

Shake well before usage. If necessary dilute with water. Suitable for all kind of applications. Airbrush application for professional use only.

Firing temperature: 950 - 980°C. (Orton cone 08-07)
