

## LEATHER PROFESSIONAL WATERSTAIN

**Waterstain** is a water-based leather dye, developed after years of research in Italian laboratories. In addition to being environmentally sustainable, it ensures brilliant and even dyes with great ease. Composed of a blend of natural and synthetic waxes, binders, and high-penetration pigments, it offers long-lasting durability. The colors can be mixed to create custom shades and diluted with water to reduce intensity. **For use only on vegetable-tanned leather.**

Key Features:

- **Brilliant and even dyes:** Easy application with exceptional results.
- **Sustainable:** Water-based and eco-friendly.
- **Mixable colors:** Create unique, personalized shades.
- **High durability:** Pigments and binders ensure long-lasting results.

Usage Tips:

- For use only on vegetable-tanned leather.
- Not suitable for suede.
- For a final finish, use PRO series leather finishes.
