

## TALENS ECOLINE - LIQUID WATERCOLOUR PAINTS

It all started with the iconic square Ecoline bottle. This well-known bottle has since been switched to a round bottle, of course without compromising the quality you've come to expect from us. This round bottle has the same stability and wide opening, allowing you to work straight out of the bottle using a brush or pen. Additionally, the bottle is fitted with a handy pipette that allows you to easily dose Ecoline into mixing trays or directly onto your artwork. The transparent colors offer the best results when used on white or very light-colored paper. The range consists of 46 brilliant and transparent colors, and 2 opaque colors (white and gold).

Ecoline Bottles Features:

- Brilliant liquid watercolors based on dye and gum arabic
- Convenient, stable bottle with a wide opening
- Use straight from the bottle with a brush or pen, or apply directly to your artwork using the pipette
- Blend colors with water and a brush for beautiful watercolor effects and seamless color transitions
- Apply to wet paper for wet-on-wet techniques
- Adheres well to watercolor paper, drawing paper, and cardboard
- Store your artworks in a portfolio for optimal color retention

| Color / Size   | 30 ML | 490 ML | 990 ML |
|----------------|-------|--------|--------|
| White          | 46408 | 46468  | 46491  |
