

## CANDLEMAKING POWDER PIGMENT DYES

**Powder pigments** are the raw material from which all candle dyes are derived, ideal for professionals. Extremely concentrated, they allow you to achieve different shades with minimal pigment amounts.

Key Features:

- **Highly concentrated:** Adding 0.1% pigment gives a light shade, while 0.5% gives a dark shade.
- **Blendable:** Pigments can be mixed together to create unique and customized shades.
- **Versatility:** Ideal for gel wax, paraffin, soy wax, palm wax, and other plant-based waxes.

Color / Size	50 GR	1 KG
White	12795	19959
