

COBRA STUDY WATER-SOLUBLE OIL COLOURS

Cobra Study Water-Mixable Oil Colours - High-Quality Results Without Harmful Solvents

Cobra Study water-mixable oil colours give the same fantastic results as traditional oil paints, without having to use harmful solvents. Cobra Study is made with the same high-quality pigments, and yet, with Cobra Study you can paint at an affordable price. This is because we offer only a selected number of colours and use less pigments that are not as finely milled as those used in the Cobra Artist series. The Cobra Study range consists of 40 vibrant semi-transparent, semi-opaque and opaque colours. They all have the highest degree of lightfastness (+++) and will remain unchanged for at least 100 years under museum conditions. **Key Features**

- Can be mixed and cleaned with water.
- Created with high-quality pigments.
- Affordable alternative for the Cobra Artist series.
- Available in 40 semi-transparent, semi-opaque and opaque colours with the highest degree of lightfastness (+++).
- Cobra can be used in conjunction with traditional oils and when mixed at a ratio of Cobra 4:1, the mixture will retain its ability to be thinned and cleaned with water.
